CB-26P Fitting position

Vauxhall Astra 1.8 GSi

"I've fitted an Ecotek device to my 1.8 Astra GSi 16v this morning, and so impressed was I, that I've created a section on my Max'd car club website!"

"What a difference! The car feels much more eager, the dreaded flat spots have disappeared! AND, I know I'm going to save money on fuel!"

Note that the device is fitted engine side of the non return valve - there is another picture on his web site. Latest update: " Well worth the money!"
